Driver's Education
Chapter 7
Snow packet

Complete all in the main dish and one item in the side dish. You may do the dessert menu for extra credit!

Due: Before January 3rd: lesson reviews and assessment, side dish

Main Dish (complete all)

1. Read chapter and complete chapter lessons. 14 pts
2. Complete chapter assessment p. 163, 10 pts
3. Complete Vocabulary sheet. Match definition to vocabulary word

Side Dish (choose 2 of the 3) 30 pts, each

1. Design a poster on the five tips on night driving and illustrate each tip.
2. Create a bulletin board on a chapter topic.

Dessert (OPTIONAL)

1. Go to drivered.glencoe.com and find information to create a public service announcement that provides tips for helping drivers avoid distractions while driving.
2. Design a poster on the different types of distractions: visual, audio, fatigue, and emotional.

CHAPTER 7 Searching and Giving Meaning

STUDY GUIDE FOR CHAPTER 7 LESSON 1

Sight

A. Match the following terms by placing the letter of the clue in the right column next to the item in the left column.

- | | |
|---------------------------------|--|
| _____ 1. visual acuity | a. gives three-dimensional perspective to objects |
| _____ 2. field of vision | b. estimating distance between yourself and an object |
| _____ 3. area of central vision | c. ability to see clearly |
| _____ 4. peripheral vision | d. what you see looking straight ahead and at an angle to the left and right |
| _____ 5. depth perception | e. vision clearest in a narrow cone-shaped area directly in front of you |
| _____ 6. distance judgment | f. enables you to notice objects and movement to the side |

B. For each sentence below, circle T if the statement is true and F if it is false. Correct each false statement in the space below.

1. About 90 percent of all decisions that you make while driving are based on information gathered with your eyes. T F

2. A color-blind person cannot legally drive. T F

3. When driving at night, you should increase your following distance to 1 second. T F

4. You should switch on your high beams in city traffic. T F

5. The light from an oncoming vehicle's headlights cause your eyes' pupils to become larger. T F

C. FIND OUT MORE. Look in your state driver's manual. What visual acuity do you need to pass the vision test? What can be done to get your license if your visual acuity is low?

STUDY GUIDE FOR CHAPTER 7 LESSON 3

Scanning, Searching, and Sensing

- A. For each topic sentence below, give examples of how you would apply scanning, searching, and sensing. Imagine that you are actually driving. What will you be specifically looking for and doing?

Look ahead, not down.

Keep your eyes moving.

Get the big picture.

Make sure that others can see you.

Leave yourself a way out.

- B. FIND OUT MORE. Interview someone you know who drives. Ask the person what information he or she collects about the road while driving in order to avoid collisions?

Dr. Ed. Vocabulary
Chapter 7

***Place the number of the definition beside the correct term
